Subject: OECD Sustainable Design of Plastics - Draft Case Studies - Packaging Sector for Review
Attachments: Case study 1.1 - Detergent bottle - First draft - Oct2020.pdf; Case study 1.2 - Biscuits packaging - First draft - Oct2020.pdf; Review Template - Draft Case Studies Packaging Sector.docx

Dear all,

In follow-up to my email last week, please find attached the two case studies for the packaging sector for your review, in the context of the OECD project on Sustainable Plastics Criteria from a Chemicals Perspective.

I ask you to send me (eeva.leinala@oecd.org) comments you may have on the packaging draft case studies by 26 November using the provided commenting form. It is important that we receive your feedback on these drafts as this is the opportunity to provide this feedback to the consultants who will finalise their case studies in December. (Please note the different deadlines for the packaging sector case studies and construction sector case studies).

Subject: OECD Sustainable Design of Plastics - Draft Case Studies - Construction Sector for Review

Dear expert group,

Hoping to find all of you well, I am sending along two draft case studies for the construction sector (insulation and flooring) for your review in the context of the OECD project on Sustainable Plastics Criteria from a Chemicals Perspective.

I ask you to send me (eeva.leinala@oecd.org) comments you may have on the draft case studies by 19 November.

Two additional draft case studies will follow next week on the packaging sector for your review.

It is important that we receive your feedback on these drafts as this is the opportunity to provide this feedback to the consultants who will finalise their case studies in December.

I also want to let you know that we will plan to have a virtual workshop on the learnings from these case studies in late February/early March in order to build towards more generalisable criteria for sustainable plastics design from a chemicals perspective. I will follow-up soon with further information.

Kind regards,
-Eeva
